WEDNESDAY - ACTIVITY 1

Find the missing numbers.

Each shape represents the same number in the number sentences.

$$\triangle + \blacksquare + \bullet = 19$$

$$\triangle + \blacksquare = 12$$

$$\blacksquare + \bullet = 10$$

Use the shapes to make another missing number problem for your partner.

Maybe try subtraction as well.

WEDNESDAY - ACTIVITY 2

Divide these nine numbers into three groups of three so that sum of each group is the same.

43   11   73

91   25   51

85   63   35
